SCOURGE

DATA-FILE:

Formerly Evil Sonic, the lame antithesis to Sonic tried to siphon off energy from the Master Emerald. He was interrupted by Locke, who left a scar on his chest, resembling a Roman numeral two (II). Now "Scourge," the villainous hedgehog became the true anti-Sonic: self-important, ruthless, and sadistic. Scourge originally hails from Anti-Mobius in a parallel dimension. There he was known as Evil Sonic, leader of the Anti-Freedom Fighters. He came to Sonic's dimension a number of times to cause trouble. When he tried to steal the Master Emerald, he was stopped by Locke. The process changed Scourge into the villain he is today. Scourge is as brash and arrogant as Sonic, but without the moral restraint - and with a desire for mayhem.

ABILITIES: Spin-dash: Scourge curls into a spinning ball and shoots forward at incredible speed. Highly destructive with some limited airborn ability. **Figure-Eight Peel-Out:** Scourge revs his feet in an infinity-symbol, then runs extremely fast. The move can also displace water for temporary hydroplaning and can slow falls. **Basic Combat:** Scourge knows basic hand-to-hand combat from years of tangling with foes. **Homing Attack:** A mid-air spin-dash that can home-in on consecutive targets. **Chaos Control:** If he has a Chaos Emerald in hand, Scourge can limitedly warp space and time. **Super Scourge:** With 7 Chaos Emeralds and 50 rings, Scourge transforms into his golden super-form and gains triple-speed, double-strength and invulnerability.

DR FINITEVUS

DATA-FILE:

Very little is known of Dr. Finitevus and what is known is still suspect. Creepy and enigmatic, the albino Echidna bearing the chest birthmark of a Guardian in black, was first seen serving Grandmaster, Lien-Da of the Dark Legion as a political and a scientific advisor. Durning the Eggman Empire backed Dingo oppression of Angel Island, The Dark Legion helped protect the Echidnas, a job once held by the severely depleted, and now missing ranks of The Guardians, of which Knuckles belongs. Despite this elevated role Dr. Finitevius showed no fear in battle and appeared to enjoy it.

Although doing little to warrant attention, Dr. Finitevus seemed to control great power. It was thought he perished to Dr. Robotnik's enforcer, the now deceased Hunter, during an attack on Angel Island. However, Dr. Finitevus has resurfaced and come to the rescue of a number of villains, and may be gathering a small army. With all the power he is amassing, one has to wonder if he's looking to conquer the world - or destroy it.

ABILITIES:

Some magical or science based powers. Little else is known.

So, now that you just read the story behind Scourge, write in and let us know what you think of "Mean Green". Funny how things happen, I was talking with Archie cover colorist extrodinaire, Tito about how to make Evil Sonic cooler. And funny enough at that moment, Spaz, Sonic artist extraordinaire called and we talked about the idea of Scourge. A great drawing later and Scourge had a new look with this new name. A quick call to the new writer on Sonic; Ian Flynn and we had a super cool story, and with new Sonic artist Tracy Yardley! bringing the character to life with the help of Jim Amash, John Workman and Jason Jensen, we have one of the best Sonic stories in years!

Funny enough, Tito helped come up with the name of the super creepy, villainous Dr. Finitevus way back in SONIC THE HEDGEHOG # 138-141, who of course has returned and will play a dark role in upcoming issues!

Below we usually feature a look at the next Sonic cover but instead we have the next three! SONIC THE HEDGEHOG #162, 163, and 164 featuring: THE DARKEST STORM, one of the biggest stories in Sonic history, penciled by the fan fav James Fry!

And for those astute Sonic fans we have a triptych cover, meaning all three covers by Spaz, connect to make one big image! The last time we did covers like this was with the Knuckles comic series!

So use the Sonic Checklist in this very book to get your Sonic, Knuckles, and Sonic X back issues!
